

ART Course on Nuclear Cardiology Nuclear Imaging in Cardiology

Imagistica radionuclidică în cardiologie

Cardiologia nucleară la granița dintre specialități

20-21 Martie 2026 | București

SIMONA BEN-HAIM

Dr. Simona Ben-Haim is the Director of the Department of Medical Biophysics and Nuclear Medicine at Hadassah Ein-Kerem University Hospital, Associate Professor at the Hebrew University in Jerusalem and Honorary Professor at University College London. She obtained her MD (1985) and DSc (1994) at the Technion, Israel Institute of Technology and specialized in Nuclear Medicine at Rambam Health Care Campus in Israel and University of Iowa College of Medicine, USA. Dr Ben-Haim has an extensive clinical experience in Nuclear Medicine of over 30 years in Israel and abroad. In her present role Dr Ben-Haim promotes the field of Theranostics at Hadassah, an accredited ENETS center of excellence, and recently accredited EARL Theranostics Center of Excellence and the first SNMMI Radiopharmaceutical Therapy Center of Excellence outside of North America. She also conducts several clinical studies exploring the clinical use of new positron emitting tracers. In addition, Dr Ben-Haim has an interest in the development and implementation of technological innovations in Nuclear Medicine. She participated in the development of a new dedicated cardiac camera and a new whole body camera with solid state detectors, as well as in the development of novel applications in Nuclear Cardiology and in general Nuclear Medicine.
